Dear Christina,

Thank you so much for taking the time to write and send me the information package about creating biography kits for children whose loved ones are suffering from Alzheimer's disease. This is a truly extraordinary project – Bravo!

Creating a living memory for people suffering from this mind blowing disease is so important, and also serves as a bonding opportunity for the middle-school and high-school children that this project is targeted to. I'm sure this project will make a real impact in the lives of families dealing with Alzheimer's.

Again, thank you for writing and best wishes in every future endeavor.

Warm Regards,

Maria Shriver
